Information about SunCare "far-infrared sauna" technology :

SunCare Sauna, is a special sauna uses only **far-infrared ceramic heaters** that discovered by NASA. All of our sauna models is different from classical sauna types as heaters. SunCare Saunas produced as **ready cabins**.

On SunCare Sauna systems the heaters are not classical sauna stoves, heaters are far-infrared ceramic heaters. These heaters are special heaters because they do not heat up the air in cabin like classical sauna stoves. The specialty of these heater's to heat up directly person(s) inside the sauna cabin. **And there is no steam or humidity** at SunCare Sauna cabins.

Our saunas works at 40 °C and 65 °C. So SunCare doesn't depress the person(s) inside.

All of our sauna models can be build up only 1 hour and **pre-heat time is only 10 minutes. No need any special fittings** without 220V electricity. You can build everywhere that have electricity. **There is no construction.**

All SunCare Sauna models uses low power supply.
(Changes model to model 1,1 kW/h - 2,7 kW/h)

Cd player, indoor lighting and aromaterapy systems are standart for all SunCare Sauna models.

SunCare Sauna cabins made from clear, unknot and unresin **Canadian white pine & Canadian Hemlock.**

SunCare sauna cabins are not only construction material, Its also very useful health material. On classical saunas the heat inside cabin can be penetrate nearly 1 cm under human skin but on SunCare Sauna heat can penetrate to 4,5 cm under the skin. So, SunCare makes **3 times more sweat, detox nearly 7 times more** to a classical sauna. Using with SunCare **30 minutes you can burn 600 calories.**It supply to get fit and burn fat. **If you can use SunCare Sauna 3 or 4 times on a week you can lose 3 or 4 kg. weight.**

By all of these performanses of the far-infrared saunas, its the most selling and most using sauna type in the world nearly 5 years.

Hygiene :

The far-infrared ceramic heaters on SunCare Sauna, is using on health mainly. It's using on heating premature babies, on physical medical therapy at hospitals. This heat can terminate the bacterium and fungus. So **there is no bad sweat smell inside cabin** and can live no bacterium and fungus inside cabins. By this property SunCare Saunas **do not need special care**.

Attention : Please do not use and ask before using your doctor.

Any open sores or bandaged wounds.

A serious heart condition

If using an old or heavy duty pacemaker, or implanted heart beat regulators.

If you have seriously high blood pressure.

SunCare Sauna vs. Classical Sauna :

	SunCare Sauna	Classical Sauna
Pre-heat time	Short (10 dk.)	Long (45- 50 dk.)
Temperature of inside cabin	40 - 65 °C	90 - 104 °C
Air inside cabin	clear, no humidity steamless	very hot, humidity steamly
Building time	nearly 1 hr.	Nearly 3-4 gün
Power on 1 hour	1,1 kW – 2,75 kW	5 kW-10 kW
Entertainment	Cd player & Aromaterapy	-
Heat source	directly effect with far-infrared ceramic heaters	very hot and indirect heat by classical sauna stove

The contents of SunCare ready cabins & building up instruction:

All of SunCare ready sauna cabins contain far-infrared ceramic heaters, lighting, fresh air door, Cd Player and aromatherapy.

You can imagine SunCare like home furniture. No need to construction. No need any plumb. You only select the area that you want to install your SunCare Sauna even your bedroom, bathroom or any place... You just need an 220V electrical outlet plug. Just plug and use.

Warranty :

All SunCare Sauna models have **CE certificate** and **2 year warranty** .

The far-infrared heaters of SunCare Saunas life is 15 000 hours.
